

Submitter: Brandon Wong

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

Private equity and their focus on profits over patients is having a devastating effect on communities throughout the country. In my state (Michigan) we are seeing lax enforcement of laws designed to prevent the corporate practice of medicine, and patients are feeling the results. Prices are higher and care quality has been on a steady decline. Please do all you can to protect Oregon and her communities.
