Committee: Senate Committee On Health Care
Measure: HB4130

Dear Senators,

I am an occupational medicine physician with a solo private practice caring for the injured workers of my community. The corporate practice of medicine is already upon us, with invisible, unethical pressures put upon doctors by their non-medical administrators to prioritize the shareholders' bottom line over our sacred Hippocratic Oath. I see this every day in my practice, with my patients having their work injuries dismissed as "non-industrial" or being outright accused of lying by the corporate clinical chains they go to for their care. I urge you to support this bill and help us evict Wall Street from the doctor-patient relationship. Thank you.
