

Submitter: Evelyn Kim
On Behalf Of: Oregon Emergency Physicians
Committee: Senate Committee On Health Care
Measure: HB4130

Dear Legislators,

Please vote to pass HB4130 prohibiting the corporate practice of medicine. I am the President of Oregon Emergency Physicians, a democratic group of independent physicians practicing medicine at 3 Providence hospitals since 1979. We were one of the first independent practice groups to staff emergency care on the West coast and we are one of the few still remaining. Contract management groups that staff other ERs across the country treat doctors as "commodities", focus on finances over patient well being, and create burn out amongst health care providers. Thank you for listening,

Sincerely,
Evelyn Kim, MD
