

Submitter: Christina Hauer

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I am a mother pleading to repeal measure 110. I cannot tell you the fear that I feel venturing out into downtown or any other areas bursting with encampments and people loitering in the streets. I have drive Nordstroms and witnessed an overdose with my children. I have had to explain to a very frightened 6 and 7 year old what fentanyl is. Does this seem like the life I want to cultivate for my children?? No. I will not go to downtown until you clean up and ban drugs. I have been chased and followed doing a return at pioneer square. This is not a safe environment for anyone and you are doing these people an injustice by enabling them with 0 consequences for their actions. It is unkind to allow these people the self harm that is taking place. This is not acceptable for them or for our community.
