

Submitter: Judith Miller

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

My grandson is an addict. He was injured and that's when he started using drugs. The hospital gave him fentanyl for the pain. He has almost destroyed the family. He's stolen from all of us, lied to us, and it appears he doesn't care what he does as long as he gets his drugs. His drug of choice is fentanyl, but he also uses cocaine. Right now, because he's smoking some of it, he sounds like he has severe pneumonia. He coughs all the time. He's been in an auto accident while using. Measure 110 should have never been on the ballot. There was never any infrastructure present to assist those who want to stop using before it was voted on. Need I go on?
