Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Please support HB 4002. Its painfully obvious that measure 110 didn't help at all. In fact it did just the opposite. Measure 110 just enabled drug users to continue to dive deeper into their addiction without any consequences and our community is paying dearly for it. Please, please, please support HB 4002 to fix the disaster that is measure 110!
