

Submitter: William Reilly

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Joint Committee On Addiction and Community Safety Response,

I have been a resident of Oregon for over 50 years. Our business is located in downtown Portland. Measure 110 has ruined the city that I have loved for over 50 years. Please pass HB 4002 to help our wonderful city recover from the out of control drug use that has been the only noticeable result of failed Measure 110. Like most Oregonians, I fully support recriminalizing hard drugs – 180 days in jail OR mandatory, supervised treatment, banning the use of hard drugs in public and giving police and prosecutors stronger laws to go after drug traffickers and dealers. Measure 110's \$100 tickets and \$7000 per-call drug hotlines have proven to be completely worthless in combatting hard drug use and helping those addicted get the real help they need, mandatory, supervised treatment.

Thank you in advance for your support of HB 4002.

Bil Reilly
