

Submitter: Adam Turco

On Behalf Of: Revitalize Portland

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I had a family member who was forced to go to treatment for doing hard drugs. It literally saved their life.

Thank you to everyone working on HB4002 - Measure 110 was an experiment based on something that worked in another country, and it simply didn't work in Portland. We need to fix the law to save lives in Portland.

- HB 4002 recriminalizes hard drugs – 180 days in jail OR mandatory, supervised treatment. No more worthless \$100 tickets and \$7000 per-call drug hotlines.
- HB 4002 bans the use of hard drugs in public. No longer can Portland allow fentanyl smoking on streets and parks, while cigarettes and beer are illegal.
- HB 4002 gives police and prosecutors stronger laws to go after drug traffickers and dealers.
