

Submitter: Mark Loebner

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I support HB 4002

The people who purport to help, the downtrodden, homeless, and addicted are the very people those people are hurting..

I am not sure of the rational for making drugs semi legal but it is clear that those who oppose 4002 are not living in the real world.

These addicted people need to get off drugs and what has gone on the last two years should prove, even to those who voted for legalization of drugs, that it does not work. Some of those who voted for the measure legalizing drugs need to come to the office with me, and see what drugs do to those who use.

Take some time and walk around Southeast Portland. Then vote.
