

Submitter: Guy Bryant

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Dear Legislators,

Decriminalizing hard drugs has encouraged people from all over the county to come to Portland and either profit by selling fentanyl and heroine or to become addicted, ruining the lives of themselves, their families and the surrounding communities.

The death, despair and homelessness in Portland right now is not a byproduct of capitalism or greedy homebuilders, it did not exist prior to decriminalizing hard drugs. The death, despair and homelessness in Portland right now is directly the fault of legislators that allowed for the decriminalization.

Here is your chance to make it right, support HB 4002.

Sincerely,  
Sad and Disgusted
