

Submitter: Russell Woods

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

A humble attempt to bring a sense of law, order, and peace must be made in the face of the insanity of our times that are so manifestly seen in measure 110. If coming against measure 110's insanity is what HB 4002 is doing - in any way. I am in support of it.

The blood and death on our streets will see judgement one day. There is one who will have His justice in His time, against this evil.

I am praying for mercy for you leaders of this city and this state. You desperately need it.
