

Submitter: Mark Blanchard

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I am in support HB 4002. Measure 110 has been out of control now for several years now and has destroyed life and safety in Portland. It has been a huge failure. I have lived my whole life in Portland and this is the worst I have ever seen it.

I ride a bike all over Portland on a regular basis and have witnessed uncontrollable drug use in DT Portland, the Springwater and I 205 multi use trails. I volunteer with SOLVE and have helped cleanup many locations in Portland in some of the worst areas. Have any of you walked or ridden on the I 205 multi use path between Holgate and Powell?

This is a path meant for recreation for people with their families, but It's populated by homeless drug addicts openly using fentanyl while we are trying to clean up their garbage!

Stop the madness!!!
