

Submitter: Rick Breckler

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I absolutely support the recriminalization of drugs - public use, possession, public intoxication. We are helping no one with these useless citations and hotlines. No one is getting treatment, crime is out of control in some areas, and conditions are squalor.

I support helping people who are unable to help themselves. Recriminalize with diversion options - the best way to go!
