

Submitter: Robert Bodine

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I am for the recriminalization of hard drugs. Even though I voted for measure 110, I see now what a mistake that was. I thought that voting for that measure would lead to more and better treatment options, but that has not happened. Plus the incentive for addicted folks has diminished due to lack of laws against possession and use. This has increased the market for drugs as far as I can tell. In addition it appears that other crimes have risen in conjunction with this failed measure.
