

Submitter: Lance Gilmore

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Oregon needs to get control over rampant use of dangerous hard drugs that has proliferated since the passage of measure 110. Although the people of Oregon voted to pass measure 110. We were sold a lie. Almost no one has sought treatment under the provisions of the bill and even if they did there is not enough clinics or clinicians to treat the addicts. Open drug use and frequent overdose deaths have now become a part of life in downtown Portland. The police do not have the tools they need to encourage addicts to get into treatment or even address open air drug use. Our quality of life has been diminished. Please take action to repeal 110!
