

Submitter: Marie Xavier

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Please vote to pass HB 4002 and make Portland a safe city for my employees to come to work and clients to patronize our business. Allowing fentanyl to be smoked on streets and in Gateway park directly across from my business is not safe for kids of pets. Drug paraphernalia and litter are dangerous and toxic to dogs and kids! Without a threat of jail or mandatory supervised treatment, drug addicts will not be inspired to recover and become productive members of society. We need to give police and prosecutors stronger laws to go after drug traffickers and drug dealers. DA Mike Schmidt needs to be ordered to do the job of making this a safe city once again.
