

Submitter: Marcella M

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I support this legislation. The reason? I moved from Portland last year and crossed the river to Vancouver, WA. I hate going into Portland. I have doctors and business duties that take me into the city each week. I saw three ODs in the middle of the streets in downtown Portland last spring and summer. I'm a native Oregonian and it made my heart hurt to move away. But, enough was enough. This experiment failed the citizens! I'd love to live in Oregon again, but not in it's current state. It's too much. It's inhumane on so many levels! Please, please make changes. Portland is a mess and has needed prompt attention.
