Measure: HB4002

I would like to voice my support for HB 4002.

We in Portland are so overwhelmed with the amount of drug overdoses, mental health/drug issues on our street. It's madness to continue without changes to the law. It not only impacts those who choose to do the drugs, but the rest of the citizens of the city. From having our children see things on the street they would not be allowed to see in a movie (sex, death, drug use) or stepping over human feces, garbage, and sometime human bodies to navigate the sidewalks. This is not an exaggeration. This is not acceptable.
