

Submitter: Andrew Bergman

On Behalf Of: Please recriminalize

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

It's time to get back to common sense. Disorder and mayhem on the lawless streets of our state are being fueled by these hard drugs. Help people who cannot help themselves. We were all sold on Measure 110 as being "treatment over jail"...and we were under them impression it would be one or the other. The reality is so far from that, because we are allowing a 3rd option...which is "do nothing, stay addicted, die in the streets". This is a disgrace. We need a much simpler either/or path. Treatment or jail. But the current lack of any consequences for addicts is having HUGE consequences for everyone else.
