

Submitter: Michele Hollis

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: HB4130

I have personally witnessed corporate decisionmaking by non-medical administrators which has led to direct patient harm. I have seen inadequate staffing of Emergency Departments, deliberate upcharging of charts, and intentional administration of medications with the potential for harm. All of these flagrant ethical violations occurred in emergency departments staffed by contract management groups owned by private equity. Any member who opposes this bill is sending a message to your constituents that you have no regard for their health, wellbeing and safety. Good luck Oregon. Healthcare is not just business.
