

Hello

I am submitting written testimony in support of HB 4002.

- * Please re criminalize hard drugs-180 days in jail OR Manditory, supervised treatment. No more worthless \$100 tickets
- * Please ban the use of hard drugs in public. No smoking of fetanyl on the streets and parks.
- * Please give police and prosecutors stronger laws to go after drug traffickers and dealers. No more excuses.

Measure 110 is a clear fail and has invited drugs/ drug users/drug dealers and other criminals to our once safe town. It has created an inhospitable environment for families, business owners, tax paying citizens, basically anyone who is not a narcotics user.

It honestly is mind boggling how anyone who is not a criminal can continue to support it.

Tax paying citizen,
Sabrina Hess
