

Submitter: Ann Mia Haning

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

PLEASE make hard drugs a crime again.

CONSIDER the choice of treatment or arrest. It's worked in other communities, but we don't have the infrastructure which is tricky in the best of circumstances. Also, users need to interact with peer support specialists, not miscellaneous "professionals." Certification for peer support specialists is increasing all the time and people would be more than happy to do this. This is the best shot for getting people to seek help.

PLEASE strengthen laws regarding drug dealers.
