

Submitter: George Russell

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

As an Oregon resident for the last 70 Years this measure 110 is not acceptable we don't need to live with all the fall out from this. If you want to help the drug addiction problem criminalize hard drugs again and force them into treatment. By being the only state in the country with legalizing drugs they all want to move here and it's not right the people of Oregon have to accept this
