

Submitter: Jill Jarrett

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Measure 110 is not working and seems to be making matters worse. Lots of people are dying from drug overdoses and our streets are littered with drug paraphernalia. I support HB 4002 and urge the legislature to vote in support. And thank you to the committee members who have worked hard to come up with a solution that encourages people to get help with their addiction.
