

Submitter: David Sideras

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I originally supported Oregon's drug legalization because it was supposed to go hand-in-hand with recovery and counseling programs to help addicts. With the explosion of public drug use and no other support visibly apparent, I am withdrawing my support and standing behind the recriminalization effort. It is embarrassing that with the largest budgets ever, a democrat-driven Oregon can't even get being democrat right.
