

Submitter: Michael Kapnick

On Behalf Of: myself

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

We cannot heal our City if we dot make hard drugs illegal again. There is nothing liberating or charitable about creating an environment in which people smoke or shoot themselves to death and spoil the public spaces of the City so no one else can enjoy them. You would have to be either cruel or unconscious to think we should keep doing more of what we have done the last 4 years. Enough is enough.
