

Submitter: Doug Crimin

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Please do something to overturn the mistake that is Measure 110. Fentanyl is ruining our state and destroying families. Treatment is nearly impossible for those who are addicted, arresting someone and locking them up is the only way to save their life and get them off the drug.

Please make this happen.

Thank you

-Doug Crimin
