

Submitter: LaJune Thorson

On Behalf Of: myself

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I support the proposed changes to Measure 110. Putting some teeth into getting people into drug treatment will help some of our neighbors who are suffering on the street. I encourage Multnomah County Commissioners to provide treatment services for as many people as are willing to take advantage of the opportunity in order to avoid the legal consequences of possession of a small amount of drugs.
