

Submitter: Kathy Clanton

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I urge you to support House bill 4002 to address the out-of-control drug crisis in our state. Measure 110 open Pandora's box, and has led to countless lives destroyed. One such life was my brother-in-law, who became addicted on the streets, and died tragically from fentanyl. He was a real person, not a number, a father, a brother, a friend. We must overturn measure 110 now! For many addicts, and arrest by law enforcement could end up, saving their lives
