

Submitter: Robert Grover

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I believe the legislature should modify or appeal of measure 110. Drugs are a big factor that leads to homelessness or traps people in homelessness. I appreciate those that think putting people in jail for drug use is not helping them, but the result of 110 has been disaster. We need to give the police tools to encourage addiction, recovery and waiting for those addicts to choose recovery on their own, without repercussions of continuing their drug use is not sound policy.
