

Submitter: jim morrison

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

leave measure 110 the way the tax paying voters voted for it. this is the will of the people. it happened because of an initiative petition. that requires a lot of time and trouble of a lot of people. ive participated in the initiative process before. it ticks us off when some legislator or some do gooder group thinks they know better. its true no one should be using hard drugs, not even keith richards
before measure 110 a young person makes a stupid youthful mistake and gets busted for possession of drugs. he gets a felony conviction on his record which sentences him to a lifetime of crappy, low pay, dead end jobs. HOW IN THE HELL DOES THAT HELP HIM OR MAKE SOCIETY SAFER.
after measure 110, he/ she gets treatment instead of incarceration and a felony conviction. why cant you republicans and legislators understand this??????
