

Submitter: Georgiana Houghton

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I support this measure. Please - change the law. It's a nightmare what has happened in Portland. Our family doesn't feel safe anymore going outside. I am constantly being verbally assaulted by addicts on the street. A man was recently found dead from overdose on a park bench next to our apartment building in the Pearl. When will this end?

Theft, crime, violence, homelessness are overtaking this once beautiful city. All because of the decriminalisation of hard drugs. Please help bring this enormous problem.
