

Submitter: Margaret Ann Crowder

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Criminal drug use puts the entire population at risk. It unnecessarily exposes children and adults to the dangerous and consequential illegal behavior of drug users and their crimes to obtain the drugs. It sets a negative example to impressionable children that using dangerous and illegal drugs is acceptable to the general population. It has demoralized the law enforcement community in their efforts to maintain and lawful and safe community. The most tragic result of Measure 110 is the increased use of illegal drugs and the wasted lives lost. This has been a deplorable mistake from the beginning. I urge the committee to SUPPORT HB4002 and begin reparations for the pain and damage that Measure 110 has caused.
