

Submitter: Alex Marler

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I voted for this measure but I did not expect things to get worse! I regret that I voted to pass this and would vote to repeal this measure. It has failed those who are using drugs and those of us in the community. Our city is filled with addicts who don't care whatsoever that what they are doing is filthy and inhumane. The addiction problem has become much worse since measure 110. None of what was intended to help has actually happened. We need to criminalize drugs and have real consequences for people who choose to act illegally.
