Measure: HB4002

I support everything about this bill. Since legalization of hard drugs, I have watched Portland deteriorate, with increased drug use on streets, increased homelessness, increased crime, and over all low morale throughout our city. We are not helping these addicted people; often some of these in the past had gotten help by mandating treatment vs jail. Let's get back to common sense approaches that worked. Also, let's not encourage our young people to do drugs! Thank you for your time.
