

Submitter: John Petersen

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

We have lived downtown for 15 years, and have seen our surroundings deteriorate the last few years to where it is unsafe to walk ourselves or our dogs

Our treasured "10 minute" urban lifestyle has been replaced by Escape from New York

We have all become numb to daily sightings

I am a lifer, have worked financing investment real estate in our city for decades and tens of billions. We are at an inflection point and need wise leadership to save this wonderful place
