

Submitter: Andrew Barker

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I live in the Pearl District and have witnessed the sad deterioration of our neighborhood in recent years as drug use and campsites have taken over our sidewalks and parks. HB 4002 provides necessary tools for law enforcement agencies and personnel in Portland to help restore the livability of our city. I urge you to pass this important legislation, which balances the need for drug treatment services with the need for residential safety and security.
