

Submitter: Kerry Duff

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

As someone who both voted for Measure 110 and who is raising a family in inner nw portland, I beg you to support this measure. As much as wanted to believe that 110 would work, it has simply left neighborhoods flooded with drug use, violence, and crime. I volunteer to clean up our local park and playground and have met with many police officers and city officials. When I point out the drug deals happening right in front of the school and playground, I repeatedly have been told that there is nothing they can do because of Measure 110. I think it's time to prioritize children over adults with addiction as much as we empathize with their addictions.
