

Submitter: Justin Acta

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Dear Lawmakers,

This bill doesn't go far enough in reversing the harm caused by Measure 110. Our cities and state need the power to prosecute and punish those who use and possess drugs and refuse to get help. We have become a destination for addicts from around the country due to our law approach on drugs and crime generally.
