

Submitter: Angela Todd

On Behalf Of: PDXReal

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

This legislation highlights the ongoing failure of our legislature to serve the people. The neglectful handling of the drug epidemic, crime, and prostitution in our city is exacerbating the situation. Many are finding our state unlivable, prompting an exodus from Portland and Oregon due to safety concerns, unaffordable living costs, and the detrimental impact of extensive homeless camps on local businesses.

Simply put of this drug crisis and homeless crisis isn't addressed soon this city will lose more employers and lose tax revenue it needs for its progressive ideas.
