

Submitter: Michelle Wachsmuth

On Behalf Of: Dan and Louis Oyster Bar

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I am in full support of HB4002 that will make hard drugs illegal again. Measure 110 has been a complete failure and has only increased public drug use plus has attracted more drug users and dealers to our area. I am tired of watching people use drugs in public and have personally administered Narcan to three people who all walked away from the paramedics and declined any help. This should no longer be an option. If you use in public there should be consequences. It's time we untied our police officers and courts system's hands to be able to arrest and prosecute people using or selling drugs in public. Please pass HB4002 and end the fiasco of measure 110.
