

Submitter: Lisa Striplin

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Please pass HB 4002 as we need to take action to save vulnerable people's lives and provide safety for all citizens in our community. The polls show those of us living in Portland are in support of HB 4002 as we citizens have been traumatized by witnessing the suffering of the addicted overdose in our streets when revived by Narcan not choose voluntary treatment instead choose to continue using the drug Fentanyl. We cannot enable the drug cartel to take over our City by encouraging people to buy and use their deadly drugs without fear of penalties risking lives of all citizens in Portland
