

Submitter: David Wall
On Behalf Of: Mr Oregon Supports HB 4113
Committee: Senate Committee On Health Care
Measure: HB4113

I SUPPORT [HB 4113 A].

[HB 4113 A] serves to reduce the costs of Health Care.

[HB 4113 A] makes high cost drugs more accessible.

[HB 4113 A] serves to increase access to prescription drugs by counting all costs-high priced drugs and generic drugs together to reach the "co-pay deductible."

BY doing so, a patient may be able to reach the "co-pay deductible" and when the "co-pay deductible" is reached, the insurer picks up the costs for the medications.

Should Oregon operate a pharmaceutical enterprise to lower drug costs?

David S. Wall

Mr. Oregon Concur, "I'm still looking for medication to ease my nausea brought about by the Oregon Legislature's incompetence-and my tax dollars paying for it."
