On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Open drug use has been a disaster for Oregon. Freedom requires responsibility. Unfortunately hard drugs destroy personal responsibility. Therefore, we must remove hard drugs from public access in as strong a way as possible. Oregon must be cleaned up and made safe for our citizens. We cannot have rampant drug use in our state. It's literally killing our citizens and destroying lives and families. Treatment has to be mandated for hard drug users or else leave the state or go to prison. Those should be the options.
