

Submitter: Edward Cleary

On Behalf Of: Addiction is not a crime

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

"Why is the legislature undoing the measure passed by the voters instead of working to implement it? Measures 4002 and 4036 return to the bad old days of treating an addiction with law enforcement. Provide facilities and funds for treatment. If necessary, require treatment.

There was ample expert testimony at the hearing about why this is a bad idea

Oregonians deserve better than HB 4002."
