Committee: Senate Committee On Rules  
Measure: HB4130

It's simple: We Oregonians want decisions about our medical care to be made by doctors, not executives with no medical training.

The decisions made by executives, who have no medical training, have a direct impact on how doctors are able to care for us patients. Please pass HB 4130 to make sure that it's doctors, not people with no medical training, who are making these decisions.
