

Submitter: Donald Allgeier
On Behalf Of:
Committee: House Committee On Rules
Measure: SB1583

Chair Fahey, Vice-Chair Kropf, Vice-Chair Helfritsch and Members of the House Rules Committee,

My name is Don Allgeier. I am a rural County Library Director. I encourage you to pass this legislation, as libraries are facing growing pressures to restrict materials available to people based on political considerations. At a time when we need greater focus than ever on ensuring our children are strong readers, library staff should be focused on that goal without the distraction of manufactured political interference. I believe this bill would take some of that pressure off of the committed staff that do this work in our schools and put the focus of their jobs back where it belongs - serving students. Thank you for your time and attention to this issue.

Sincerely,
Don Allgeier
