

Measure: SB1583

I oppose SB 1583.

Children do NOT belong to the state, that includes enforcing school boards to do the state's bidding. Parents are first and foremost when it comes to their children and deciding what they should be taught. Parents know best what is right for their child. Remove the trauma-bonding and sexualizing of children from public education and get back to what our children need most, a classical education. Allow school boards to do their job.

I oppose SB 1583. Vote NO.
