On Behalf Of:

Committee: House Committee On Rules

Measure: SB1583

It is a false assumption that anyone in the legislature can help any child to succeed in life. This comes down to character and only persons close to children mentally can help them. So to make ANY law that purports to help the education of children is false on its face. Just STOP!

The public adults and children of all ages would be better off if all the bureaucrats in Salem just STOPPED making ANY new laws!
