SB 1583. Vote NO!

We are Not asking to "ban books" We want age-appropriate materials to be moderated by local school boards and keep indoctrination out.

This bill discriminates against parents rights & the rights of School Boards to have a say & on curriculum & books. SB 1583 prohibits & silences parents from protecting their kids against certain content that is not age appropriate including vulgar explicit words & pictures that are not even allowed to be spoken at School Board Meetings or in public settings.
